

# Ryan Barrett - Full Stack Web Developer

---

**Linkedin:** <https://www.linkedin.com/in/ryan-barrett~/>

**Github:** <https://github.com/ryan-barrett>

**Portfolio:** <http://ryanwebdev.net>

**Phone:** (770) 561-0473

**Email:** [Ryan.Barrett@spookyhouse.org](mailto:Ryan.Barrett@spookyhouse.org)

## SKILLS & LANGUAGES

**Languages:** Javascript, Ruby, Python, HTML5, CSS3, SQL, Git

**Frameworks & Databases:** Rails, Node.js, Mongoose, Express, React, MongoDB, PostgreSQL

**Other:** AJAX, Bootstrap, Materialize, Heroku, Github, jQuery, Handlebars, RSpec

## EXPERIENCE

### Web Development Student | General Assembly | San Francisco

June 2017 – September 2017

Involved in all aspects of developing web applications including front-end design, back-end functionality, and database management. Focused on one week sprint projects developed individually and in teams.

### Projects

**Nomad:** A MERN stack application that lets users share their travel experiences. Used MongoDB, Express, and React. <https://nomad-.herokuapp.com/>

**FixingSanFran:** Fixing SanFran is a city planning rails app created to encourage civic engagement, and allow users to bring public issues to the attention of their representatives. <https://fixing-sanfran.herokuapp.com/>

**Kumu:** A rails note sharing app created in a team of four full stack developers focused on agile software development. The intended purpose of this app is to facilitate collaboration between students. <https://kumuapp.herokuapp.com/>
